## F70938 Stain Glass Seasons Instructions

Items you will need for this project:

1 package mini battery operated lights

1 Glass 8" x 8" x 3" Crafting Block

Velcro Dots, 8 per glass side

2 yards of light colored Organza material(white, light pink, cream colors work the best)

Fibrous water soluble stabilizer

White Bobbins and color thread for each design

Tape (Freezer or Scotch tape)

Note: Use a hoop that is larger than 8 inches. We used 13"x11" for this project

Note: These designs have many stitches but the stitches are long so it takes approximately 3 hours to stitch each design.

1. Hoop two pieces of water soluble stabilizer.
2. Cut a piece of Organza material 1 inch larger than the design.
3. Center the Organza material in the hoop and tape all around, this material is slippery so you want to secure it as much as possible.

4. Embroider the design.

5. Take out of hoop and cut close to the border of the design, be careful not to cut the embroidery thread.

6. You have the choice of washing the water soluble stabilizer away or leaving it. We chose to leave the stabilizer on because it made the design reflect a soft glow when on the glass.
7. Prepare and place your lights inside the glass.

- Place 8 dots of Velcro on each side of the glass.

- Place 8 of the opposite side of Velcro on the design you embroidered and adhere it to the glass.
- If you want to display two designs place another on the opposite side of the glass.
- Adjust your lights to reflect all of the design.
